

ScanPro 2200

High Performance, Amazing Low Cost

The First Microfilm Scanner Under \$5,000!

The ScanPro® 2200 is the best-featured, lowest cost microfilm scanner on the market. It comes with all of the features you need to handle your microfilm. And, you can afford it.

FEATURES YOU NEED

With the ScanPro 2200, you don't need to sacrifice functionality for price. The unit comes with all the tools you need to make your research quick and efficient, including:

- Patented FOCUS-Lock™ technology that provides continual image focus even during optical zoom
- Customizable film selection wizard that allows you to automatically set up your scanner with just one click
- 6.6 megapixel camera* with portrait or landscape orientation
- 7x-32x optical zoom to provide clear image resolution
- Fit-to-window feature which fills the entire monitor screen and increases workspace
- On-screen magnifier to read small text and examine fine details
- Customizable tool bar
- Intuitive, easy-to-use interface
- Library-Quiet™ technology so it won't disturb other patrons
- USB 3.0 capabilities

BUILT FOR PUBLIC USE

All ScanPro models are built for the rigors of public use, and the ScanPro 2200 is no exception. All units are built with durable, heavy gauge steel throughout, and all moving parts use steel bearings for precision, performance and long-term reliability. It's not unusual to find ScanPro units with more than one million scans and working just like new.

NEW THREE-YEAR FACTORY WARRANTY

The ScanPro line of products have proven to be the most reliable in the industry. e-ImageData now offers a three-year factory warranty on all products, including the ScanPro 2200. This is the best warranty in the industry.

UPGRADE AT ANY TIME

The ScanPro 2200 can easily be upgraded to the ScanPro 2200 Plus for additional functionality and access to optional features. This can be done right at the customer site and at any time.

* 6.6 megapixel sensor

Get started with the ScanPro 2200 for great performance and the lowest cost on the market.

Automatically Scan Roll Film and Microfiche at 100 Images Per Minute

The ScanPro 2200 Plus can ship from the factory with an AUTO-Carrier for scanning fiche and roll film (requires a roll film carrier). And, if you add AUTO-Scan Pro you can scan at over at 100 images per minute. The ScanPro is the only desktop microfilm scanner on the market that can provide both on-demand and conversion scanning of fiche and roll film.

Easy to Use

The ScanPro 2200 software is an intuitive Windows® computer application with familiar icons and text labels. And, the on-screen help menu is available for all controls to help the user at any time.

Must Have Features and Benefits

- 1) The ScanPro 2200 maintains continual image focus across the entire range of magnifications which keeps your microfilm image constantly in focus. This makes it possible to complete look-ups and conclude research quickly and efficiently.
- 2) The 7x-32x optical zoom magnification covers the common magnifications. The ScanPro 2200 can be upgraded at anytime to ScanPro 2200+ with just a license key. No other scanners on the market have this feature benefit.

Value

The ScanPro series is designed and built to stand up to the rigors of public use by incorporating heavy gauge steel throughout for long term reliability. It is not unusual to find ScanPro scanners with millions of scans, working just like new.

3-year factory warranty (includes carriers), a warranty you can rely on, the best in the industry.
