## Find Your Blip With Exceptional Accuracy.

The ScanPro® i9300 microfilm scanner is the product you've been waiting for to bring your image-marked, or blipped, film into the digital age. We know that original blipped film scanners are aging and you have limited options for repairing them. That's where the i9300 comes in — **designed to recognize all of your blipped film, regardless of whether it is standard or custom format.**

Utilizing proprietary technology, the ScanPro i9300 finds your blip the first time with exceptionally accurate searching. The machine's precision is bolstered by its unique **PRECISION-Guide film rollers, which tightly control the microfilm's movement, ensuring the most precise image search.**

In addition, the ScanPro i9300 **is a universal scanner that can read and scan ALL microfilm types** — not just blipped. This one machine allows you to utilize your entire microfilm collection.

### THE SCANPRO i9300 OFFERS YOU:

- The ability to work with and provide automated set-up for both standard and custom blipped formats
- Works with ALL other microform types in addition to blipped film
- Exceptionally accurate searching
- Easy, simple and fast film loading
- FOCUS-Lock™ maintains image focus throughout optical zoom
- SPOT-Edit™ live image editing of selected texts and pictures while all other areas remain unchanged
- AUTO-Adjust automatic on-screen image straightening, cropping and brightness and contrast adjustment
- Optical Character Recognition (OCR) using the latest ABBYY® Fine Reader software
- Built on the reliable ScanPro® 3000 platform

If you have image-marked  
film, this is the solution you  
have been waiting for.

# Precise. Powerful. Universal.

# ScanPro

## UNIVERSAL

We like to think that the i9300 is the future of blipped film. Whether you have Kodak, Canon, Minolta, 3M or custom-formatted film, the i9300's automated set-up makes it easy to recognize them all. Not only that, but the ScanPro i9300 can read and scan regular microfilm! So whatever your microform collection contains, the i9300 has you covered.

## REMARKABLY ACCURATE

The ScanPro i9300 offers the most precise image search on the market. Using proprietary technology, it recognizes every batch, file and page with incomparable accuracy. Standard features on the i9300 further enhance your work. FOCUS-Lock technology ensures that your film image maintains focus throughout the optical zoom. SPOT-Edit allows live image editing of selected text and pictures while all other areas remain unchanged. The AUTO-Adjust tool automatically straightens and crops the on-screen image and properly adjusts for brightness and contrast, making your image clear and easier to work with. Some patrons have referred to this as the "magic button," but we assure you, no magic is required.

## COMPACT AND DURABLE

The ScanPro i9300 is designed and built to stand up to the rigors of public use, and its compact size means it will fit in almost any workspace. The i9300 software gives users the ability to search for blips using a convenient and intuitive on-screen window, unlike old machines with a bulky stand-alone keypad controller. It's also LibraryQuiet™, so it won't disturb research. All ScanPro products have a proven track record of performance and reliability backed by factory-trained and certified dealers. In addition, we pride ourselves on our customer service — we update and train our customers as new features and software updates become available.

## ULTRA-HIGH DEFINITION SCANNING

The ScanPro i9300 is built on the ScanPro® 3000 platform. This exceptional, fully-featured unit gives you the benefit of its 26 megapixel camera, which is nearly twice the optical resolution of any other microfilm scanner on the market. The ultra-high definition scanning of the ScanPro 3000 offers the clearest images in the industry.

Since the i9300 is built on the ScanPro 3000 platform, you also can add AUTO-Scan® Pro — fast, accurate and customizable automatic scanning — and the PowerScan Productivity Suite (PPS), the fastest word searchable OCR software in the industry.

## Clearest Image. Highest Zoom. **Fastest OCR Software.**

### OCR work on the ScanPro is a SNAP!

Take your research and your ScanPro i9300 to the next level with our exceptional PowerScan Productivity Suite (PPS) OCR software. The PPS software has been leading the marketplace as the fastest word searchable OCR software in the micrographics industry since 2011. Now, we've taken it a step further by adding proprietary high speed processing algorithms — **Smart Navigation Active Processing (SNAP)** — to give you real-time OCR results. Get information in as little as ONE second.

PPS software with SNAP gives you ease-of-use and efficiency that's never before been seen in the micrographics industry.

Our software gives you the following capabilities, all using a live-screen image. There's no need to save your microfilm image first!

**INFO-Link™** To access more information about a topic within your microfilm image, just click the INFO-Link button and the desired word to open a reference source like Wikipedia, a dictionary, or a thesaurus.

**Copy to Clipboard** Select information on your microfilm image and copy it to the clipboard as text for pasting into any document.

**WORD-Search™** Click the WORD-Search button and enter a word in the search box to find that word in your microfilm image. Every instance of the word is highlighted.

**Multi-Page Word-Searchable PDF** Convert any microfilm image to a single-page or multi-page word-searchable PDF with just one click.

### See the ScanPro with PPS Difference!

OCR Feature	PowerScan Productivity Suite software with SNAP from e-ImageData	Competitor Software
INFO-Link (source used Wikipedia)	1 second	67 seconds
WORD-Search	2 seconds	71 seconds (with 20% accuracy in finding selected word)
Copy-to-Clipboard	1 second	57 seconds
Multi-Page Word Searchable PDF (10 pages)	17.4 seconds (1.74 seconds per page)	209 seconds (20.9 seconds per page)

## ScanPro i9300 Features and Specifications

USB3.1 Gen 1 Camera: 26 MP <sup>1</sup> (6.6 MP X 4) pixel shifting camera
Reading blips: One, two and three level (highest accuracy), all common sizes and custom sizes. Simplex and Duplex film formats with auto capture and custom search
Camera Orientation: Portrait and landscape, 360° optical image rotation
Interface: Intuitive Windows computer interface, easy to use with all film types
Customizable Film Selection Wizard: Single-Click to automatically set up your scanner using custom presets that retain all settings including optical zoom and focus
Optical Zoom: 7x-105x magnification (for entire range 7x-105x optical film reduction ratios)
Digital Zoom: 7x-1575x
Fit-to-Window: displayed image covers the entire monitor screen leaving no blank area
On-screen magnifier (selectable zoom) to read small text and examine fine details. Scan and print what is seen in the magnifier window
Continual image focus even during optical zoom (FOCUS-Lock™)
Soft, bright, film-optimized, monochromatic LEDs with lifetime warranty and optically clear carrier glass for best image quality
Software Selectable Resolution: 150 dpi to 2000 dpi, 256 grayscale, bi-tone (B&W)
Media: Fiche/Ultra-Fiche/Aperture Cards, (& optional) 16/35mm, 16/35mm/ Cartridge, Micro Opaques
Carriers (optional): AUTO-Fiche™ Carrier, 16/35 roll film, 16/35/M roll film & cartridge
PRECISION-Guide film rollers are low inertia, easy-to-thread, ball bearing rollers provide precision control of film image position and movement
Single page OCR PDF using ABBYY® fine reader (files are saved as PDF/A)
PowerScan Productivity Suite (optional): WORD-Search, INFO-Link, Copy-to-Clipboard, OCR word searchable multipage PDF, using ABBYY® OCR engine for speed and accuracy
Specify the dimensions for the printed or scanned document image
Three Single-Click Print Buttons: Print to programmed paper sizes and printers
Option to turn on/off watermark and copyright warnings
Three Single-Click Scan Buttons: Save to programmed locations
Single-click scan buttons to Cloud and to Email (uses embedded web based email App for security)
Export Scan Button: (name the scan, select the scan format, select "send-to" location, single-click to send)
Save scans in all common file formats including PDF/A, PDF/L, PDF w/OCR & (multi-page)
Previous/Next: Automatically moves the film one image for each click
SPOT- Edit™ (live editing provides speed and accuracy): Select any area (or multiple areas) then adjust brightness, contrast, redact or whiteout for any selection with a Single-Click
Single-Click AUTO-Adjust Button: Adjusts brightness, contrast, straightens, and crops
Optical Straighten: Select Automatic, Line or Manual
Digital Rotation: Click to rotate image 90°, Click to mirror image
MergeClips™: Combine, arrange, and size scans to a single page, plus annotation
USB3/USB2/USB1: Convenient, front access port for portable flash drives
AUTO-Scan® (Included) operates with roll film <sup>2</sup> and with fiche <sup>3</sup>
Auto Straighten/Crop, Auto Straighten
Unlimited scans, up to 10 pages per minute roll_film <sup>2</sup> & 20 pages per minute fiche <sup>3</sup>
AUTO-Scan® Pro (optional) operates with roll film <sup>2</sup> and with fiche <sup>3</sup>
Auto Straighten, Crop, Auto-Brightness
OCR while scanning and save as multipage file
Unlimited scans, up to 55 pages per minute for roll_film <sup>2</sup> & 60 pages per minute for fiche <sup>3</sup>

1. – Megapixels 2 – Requires Roll Film carrier 3 - Requires AUTO-Fiche Carrier

## ScanPro i9300 Product Information for latest info <http://e-imagedata.com>

<b>Fits almost anywhere</b>	Smallest desktop operating footprint
<b>Operating Systems</b>	Versions, 32 and 64 bit: Win 7 to Win 10; Editions: Enterprise, Professional, Home
<b>Interface</b>	USB 3.1 Gen 1 (also called USB 3.0)
<b>Weight / Dimensions (H x W x L)</b>	9kg (19.5lbs) / 18cm x 31cm x 41cm/7in x 12in x 16in
<b>Power</b>	100-240VAC 50/60Hz
<b>Film Path</b>	Straight film path minimizes wear (film not pulled across glass edges)
<b>Energy Efficiency</b>	ENERGY STAR® Certified
<b>Product Safety</b>	OSHA workplace safety certified to US/CA standards
<b>Warranty</b>	3-Year factory warranty (includes carriers)

# ScanPro i9300

## Must Have Features and Benefits

1) This ScanPro® is both an i9300 and a 3000 and has a 26 MP camera, the highest optical resolution camera in the industry, displaying the clearest image. 2) This ScanPro maintains continual image focus across the entire range of magnifications which keeps your microfilm image constantly in focus. This makes it possible to complete look-ups and conclude research quickly and efficiently. 3) The 7x-105x optical zoom magnification (for the entire range of 7x-105x optical film reduction ratios) provides the sharpest microfilm image in the industry making it possible to read small text and examine fine details. Only the ScanPro microfilm scanners have these superior performance capabilities.

## Easy to Use

The ScanPro i9300 software is an intuitive Windows® computer application with familiar icons and text labels that reduces the learning curve for both occasional and first time users. The customizable interface keeps the tool bar simple by allowing for the selection of just the controls needed for your application. To get started, just CLICK the Film Selection Wizard to automatically set up your scanner. Then use the interactive on-screen help menu, always at your fingertips, to provide details on how to use any button control.
