

# ScanPro 2200+

## High Functioning Microfilm Scanner for Research

### Budget-Friendly Price

The ScanPro® 2200 Plus is a top-of-the-line microfilm research tool with powerful capabilities. It has all of the important features used by researchers and archivists around the world to quickly and efficiently work with all types of microfilm. Best of all, it comes at price that's friendly to budget-conscious consumers.

#### BEST VALUE FOR FEATURES RECEIVED

No other equipment on the market can match ScanPro products for their track record of performance and reliability and the ScanPro 2200 Plus is no exception. It includes features never before seen in the micrographics industry at this price point, including the industry's first and only 7-105x optical zoom. This standard feature on the ScanPro 2200 Plus, 3000 and i9300 gives the operator unprecedented ability to zoom in, read small text and examine fine details.

Other standard features that help users work with microfilm easily and proficiently, include:

- One-click Auto Adjust to adjust brightness, contrast, straighten and crop — patrons call this the "magic button"
- SPOT-Edit™ live image editing so you can edit ONLY the part of the image you want
- Patented FOCUS-Lock™ technology that provides continual image focus even during optical zoom
- Customizable film selection wizard that allows you to automatically set up your scanner with just one click
- 6.6 megapixel camera with both portrait and landscape orientation

- Fit-to-window feature which fills the entire monitor screen and increases workspace
- Customizable tool bar
- Library-Quiet™ technology so it won't disturb other patrons
- USB 3.0 capabilities
- Intuitive, easy-to-use Windows®-based software

#### OFFERS THE SAME DURABILITY AND RELIABILITY YOU'D EXPECT FROM OUR SCANPRO PRODUCTS

- **Three-year factory warranty** — unmatched in the industry!
- **Built for public use** — heavy gauge steel throughout
- **PRECISION-Guide rollers** — best on the market to protect your microfilm investment!
- **Proven track record** — performance and reliability backed by factory-trained and certified resellers

The world's leading universities and libraries have been choosing e-ImageData microfilm scanners for more than 20 years.

ScanPro 2200 Plus Features and Specifications	
USB 3.0 Camera: High optical resolution, 45 lp/mm <sup>■</sup> (6.6 megapixels)	
Camera orientation: Portrait and landscape, 360° optical image rotation	
Maximum image size: 424 megapixels (image size is <b>not</b> optical resolution)	
Optical zoom magnification range: 7 to 105x, the highest in the industry	
Digital zoom magnification range: 7 to 1575x	
Fit-to-window fills the entire monitor screen leaving no blank area	
On-screen magnifier (selectable zoom) to read small text and examine fine details; scan and print what is seen in the magnifier window	
FOCUS-Lock™: Continual image focus even during optical zoom	
Soft, bright, film-optimized, monochromatic LEDs with lifetime warranty and optically clear carrier glass for best image quality	
Fiche/Ultra-Fiche/Aperture Card carrier, Micro Opaques (optional)	
16/35 universal and 16/35/M cartridge universal carriers (optional)	
PRECISION-Guide film rollers: Low inertia, easy-to-thread, ball bearing rollers provide precision control of film image position and movement	
PowerScan Productivity Suite (optional)	
Customizable Film Selection Wizard: One click to automatically set up your scanner	
Presets retain all settings including optical zoom and focus	
Single page OCR PDF using ABBYY® fine reader (files are saved as PDF/A)	
Specify the dimensions for the printed or scanned document image	
Three one-click print buttons: Print to programmed paper sizes and printers	
Option to turn on/off watermark and copyright warnings	
Three one-click scan buttons: Save to programmed locations	
Previous/Next: Automatically moves the film one image for each click	
SPOT- Edit™ live image editing: Select any area (or multiple areas) then adjust brightness, contrast, redact or whiteout for any selection	
One-click AUTO-Adjust button: Adjusts brightness, contrast, straightens, and crops	
Optical straighten: Select Automatic, Line or Manual	
Digital Rotation: Click to rotate image 90°, click to mirror image	
MergeClips™: Combine, arrange, and size scans to a single page, plus annotation	
USB 3.0/USB 2.0/USB 1.0: Convenient, integrated, front access port for portable flash drives	
Automatic Scanning (included) Auto Straighten, Crop, Resize and OCR as you scan Unlimited scans, up to 10 pages per minute	
AUTO-Scan Pro (optional) Auto Straighten, Crop, Resize, and OCR as you scan Auto Brightness & Contrast Unlimited scans, up to 50 pages per minute	

■ Optical image resolution at newspaper magnification

### ScanPro 2200 Plus Product Information

<b>Fits almost anywhere</b>	Patented design provides smallest footprint
<b>Operating Systems</b>	Win 7 to Win 10 (32 and 64 bit)
<b>Interface</b>	USB 3.0
<b>Weight/Dimensions (H x W x L)</b>	9kg (19.5lbs)/18cm x 31cm x 41cm/7in x 12in x 16in
<b>Power</b>	100-240VAC 50/60Hz
<b>Film Path</b>	Straight film path minimizes wear (film not pulled across glass edges)
<b>Energy Efficiency</b>	ENERGY STAR® certified
<b>Product Safety</b>	OSHA workplace safety certified to US/CA standards
<b>Warranty</b>	3-year factory warranty (includes carriers)

Patents 8,269,890 8,537,279 9,179,019 9,197,766 9,158,983

## Add More Functionality

**Choose from these optional add-ons to increase the versatility of your ScanPro 2200 Plus and take your work-flow to the next level!**

### AUTO-SCAN® PRO:

While automatic-scanning does come standard on all ScanPro models, the AUTO-Scan Pro software upgrade scans images 5 times faster! AUTO-Scan Pro uses intelligent algorithms to locate, straighten and crop each image. It also removes unwanted borders and adjusts each image for best brightness and contrast before the scan is automatically saved in the file type you have selected. *The best part?* It does all of this at the quick pace of up to 50 images per minute!!

### POWERSCAN PRODUCTIVITY SUITE:

The Powerscan Productivity Suite (PPS) is the fastest word searchable OCR software in the industry. This world-class software is consistently preferred by researchers for accuracy and speed and includes powerful features such as:

- WORD-Search™
- INFO-Link™
- Copy to Clipboard
- Multi-Page Word-Searchable PDF
- All OCR capabilities use the live-screen image, which eliminates multiple steps and increases speed and efficiency

In addition, we've taken it a step further by adding proprietary high speed processing algorithms — **Smart Navigation Active Processing (SNAP)** — to give you real-time microfilm results in as little as ONE second.

PPS software with SNAP gives ease-of-use and efficiency that's never before been seen in the micrographics industry.
