

ScanPro 2200

High Performance, Amazing Low Cost

The First Microfilm Scanner Under \$5,000!

The ScanPro® 2200 is the best-featured, lowest cost microfilm scanner on the market. It comes with all of the features you need to handle your microfilm. And, you can afford it.

FEATURES YOU NEED

With the ScanPro 2200, you don't need to sacrifice functionality for price. The unit comes with all the tools you need to make your research quick and efficient, including:

- Patented FOCUS-Lock™ technology that provides continual image focus even during optical zoom
- Customizable film selection wizard that allows you to automatically set up your scanner with just one click
- 6.6 megapixel camera with portrait or landscape orientation
- 7-32x optical zoom to provide clear image resolution
- Fit-to-window feature which fills the entire monitor screen and increases workspace
- On-screen magnifier (selectable zoom) to read small text and examine fine details
- Customizable tool bar
- Intuitive, easy-to-use interface
- Library-Quiet™ technology so it won't disturb other patrons
- USB 3.0 capabilities

BUILT FOR PUBLIC USE

All ScanPro models are built for the rigors of public use, and the ScanPro 2200 is no exception. All units are built with durable, heavy gauge steel throughout, and all moving parts use steel bearings for precision, performance and long-term reliability. It's not unusual to find ScanPro units with more than one million scans and working just like new.

NEW THREE-YEAR FACTORY WARRANTY

The ScanPro line of products have proven to be the most reliable in the industry. e-ImageData now offers a three-year factory warranty on all products, including the ScanPro 2200. This is the best warranty in the industry.

UPGRADE AT ANY TIME

The ScanPro 2200 can easily be upgraded to the ScanPro 2200 Plus for additional functionality and access to optional features. This can be done right at the customer site and at any time.

Get started with the ScanPro 2200 for great performance and the lowest cost on the market.

ScanPro 2200

The Complete Digital Solution

Built for rigorous public use

ScanPro products are built for durability in public use applications. The construction is heavy gauge steel throughout and all moving parts use steel bearings for precision, performance and long term reliability. It is not unusual to find ScanPro scanners with over 1,000,000 scans and working just like new.

Simple and Efficient to Operate

Small and compact, the ScanPro 2200 fits almost anywhere. One CLICK on-screen buttons complete look-ups quickly and efficiently. The combination carriers for all microforms are easy and fast to operate.

Exceptionally Easy to Use

The ScanPro 2200 software is an intuitive Windows® computer application with familiar icons and text labels. And, the on-screen help menu is available for all controls to help the user at any time.

ScanPro Roll Film Carriers are the best in the industry

The ScanPro roll film carriers provide the operator with precision micro positioning of the microfilm image. These controls include image advance slow and fast (forward and reverse), image scrolling, image framing and auto-rewind. These controls are conveniently located on the monitor screen so that the operator does not have to move back and forth between physical buttons on the scanner and the software on-screen buttons. Operators report that having all buttons in one place is a significant convenience.

The ScanPro products have a proven track record of performance and reliability backed by factory trained and certified resellers.

ScanPro 2200 Features and Specifications
