Preservation Week

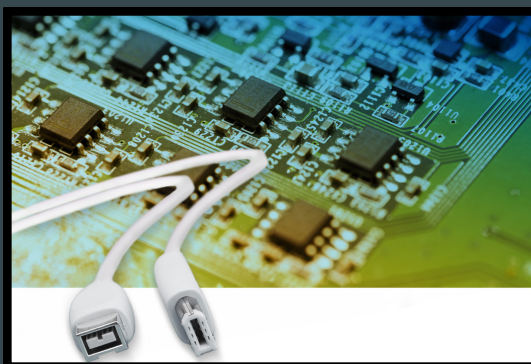

FROM PRESERVATION TO ACCESS

Why digitization matters this Preservation Week

Preservation has always been about protecting the past but today, access matters just as much. During Preservation Week, we're taking a closer look at how organizations are bridging that gap. Microfilm has long been a trusted way to safeguard records, but if those records can't be easily found or used, their value is limited.

Microfilm digitization changes that—turning archived film into searchable, accessible digital files that support research, improve workflows, and extend the life of your collections. It's not about replacing microfilm, it's about unlocking it.

STILL GOT FIREWIRE?

It's time to upgrade!

Move to a faster, more reliable scanning experience with modern connectivity and improved performance.

Upgrade today and get more from every scan.

SCANPRO® NEWS

**ALA Annual
Conference & Exhibition**

**CHICAGO★
JUNE 25-29, 2026**

FROM FILM TO FUTURE—SEE SCANPRO LIVE AT BOOTH 816

Join us at this year's **ALA Annual Conference & Exhibition** in Chicago and discover how ScanPro helps libraries turn microfilm into searchable, accessible digital collections.

At **Booth 816**, see how easy it is to preserve your archives, improve patron access, and simplify your workflow—all in one solution.

Stay tuned—we've got some exciting *Film to Future* happenings planned throughout the show.

Visit Booth 816 and see it for yourself.

DID YOU KNOW?

You Can Scan and Save Directly to the Cloud

Send scans straight to the cloud—no USBs or extra steps needed.

- Instant access for staff and patrons
- Easy sharing and storage
- Faster, more streamlined workflow

SCANPRO® NEWS

WE LOVE HEARING FROM YOU

Have a ScanPro® that's making your work easier, your scans sharper, or your archive more accessible? Tell us what you love about it (and even send a photo!) and we'll send you a **free microfiber dust cover** to help protect your scanner.

It's a fun way to celebrate the real stories and feedback from ScanPro users like you — and see what others appreciate about their ScanPro too.

Share your ScanPro experience [here!](#)

"We love our paperless ScanPros! It is easy to use... and the very best part is being able to digitize complete rolls of microfilm on site. Our patrons adore it!"

— Sarah Hull, Plainfield Public Library

"We appreciate the ease of use, dependability, and the robust PowerScan software...easy for our patrons to use, and we can digitize our microfilm in-house."

— Eddie Clem, Kokomo-Howard County Public Library

"Excellent image quality and quick learning curve... would highly recommend!"

— Natalie Bishop, Gardner, Webb University
